6.13	3.19	2.94				
Group 300	Machine310	Machine320	Machine330			
7.78	2.56	3.28	1.94			

- i. The machines with green background means running, with yellow means idle, with red means alarming, or with blue color means power down.
- ii. The number below the shop or each group or machine represents the accumulated hours of the present day's run, down, idle, alarm or power down status depending on which button has been clicked.

Fig. 17

Machine 120 05/25/2003 2:36 p.m.

- i. The graphic shows the process of detail status for the present day – 5/25/2003 from 0:00 a.m. to the present time(2:36 p.m.)
- ii. The right side numbers of the graphic are the accumulated hours for each status and percentage from 0:00 a.m. to 2:36 p.m.

Fig. 18

Group 200 5/25/2003 2:36 p.m.

- i. The graphic shows the accumulated machine status hours in this group for the present day – 5/25/2003 from 0:00 a.m. to the present time(2:36 p.m.)
- ii. The right side numbers of the graphic are the accumulated machine status hours in this group for each status and percentage from 0:00 a.m. to 2:36 p.m.

Critical	Level	2	Run	Down	Idle	Alarm	PWDown	Back
----------	-------	---	-----	------	------	-------	--------	------

Machine 120	Machine 210	Machine 320	Machine 330
1.21	3.19	3.28	1.94

- i. The critical level can be preset in each machine's property.
- ii. For example, the critical level setting of
 - Machine 110, Machine 130, and Machine 220 are 1
 - Machine 310 is 4
 - Machine 120, Machine 210, Machine 320, and Machine330 are 2
- iii. The screen will show all the machine status icon when the exact critical level was chosen.
